Based on various traditions over a thousand years old, studying the Enneagram system of psycho-spiritual development gives us an endlessly intriguing metaphor for waking up. Each style has its own natural gifts, limitations, blind spots, and its own distinctive ways of thinking, acting and being.

In this workshop, we'll quickly review the basic world-views of each type but this time, we will focus on the overlapping influences of the other eight numbers (EnneaTypes). Together, we'll discover how each personal style can evolve with awareness or devolve without it. Participants will learn nine separate ways to practice returning to the light of compassionate awareness.

**NOTE:** If you've not come to the previous workshops, please join us anyway. We recommend that you prepare for the class by taking the free Enneagram quiz:

**Enneagram** is a Greek word – *ennea* (meaning "nine") and *gram* (meaning something written or drawn) – and refers to the nine points, nine basic personality types.
